## 9 Continuous Improvement (100)

This criterion essentially evaluates the improvement of the different indices that have already been discussed in earlier sections.

From 9.1 to 9.5 the assessment calculation can be done as follows

If a, b, c are percentage of performance during three successive years respectively then, assessment can be calculated as

$$\text{Assessment} = (b-a)/(100-\min(b,a)) + (c-b)/(100-\min(c,b))$$

If a, b, c are above 75% and a decline is within 5%, then the performance does not fall below 75% and the performance is considered sustainable.
